Customer Announcement from Professional Software, Inc.

We would like to announce that John and Melissa Douglass have acquired the IT Services division of Professional Software and launched a new IT Services company, Pileus Technologies, LLC! They, along with technicians, Bryce, Sharon, and Nicole will continue to provide IT services to all of the PSI IT customers without interruption. For Sage 100 support and programming services, you may continue to contact Doug, Ann, Mary, Tom, Gil, Brad, Jeane, and Molly at Professional Software as you have in the past.

John Douglass has been employed with Professional Software since 2002 and over the years he has been a major architect in the growth of the IT segment of our business. John has demonstrated good leadership and business management skills during his tenure at PSI. I am very confident that he and his crew will be successful as they work to provide you with affordable, secure and timely IT support in the months and years to come.
